

iRemote[®]TS 2-WAY WIRELESS RF/IR SYSTEM CONTROL REMOTE WITH COLOR TOUCHSCREEN

HOME THEATER
AND WHOLE HOUSE
ENTERTAINMENT
IN THE PALM OF
YOUR HAND

Introducing the iRemoteTS. Finally, a simple wireless touch screen interface that controls both the whole-house audio/video system and the home theater. Together at last!

FEATURES AND BENEFITS

The iRemoteTS has two operating modes: House and Theater. When the House button is pressed, the iRemoteTS becomes a "wireless" Contact System Control Touchscreen that controls any zone of an IntelliControl[®] ICS distributed audio/video system. When the Theater button is pressed, the iRemoteTS changes identity and provides the user with up to 12 Master Keys and Control Screens to operate a complete home theater system.

High-resolution color touch screen display with LED backlighting provides complete metadata from IntelliControl ICS sources, zone/system status, favorite-station icons for theater sources, control functions, and system setup menus.

Metadata, Preset Favorites and Menus are displayed as provided by IntelliControl ICS integration and tuner modules. IntelliControl ICS Modular MultiZone Receiver system setup settings can be displayed for adjustments of tone controls, clocks, timers and other system functions.

Predefined Control Screens for all sources. The control screens for the House and Theater sides are predefined by the source. During IntelliFile 3 setup, the sources are identified and the control screens are automatically configured and then loaded into the iRemoteTS.

Radio Frequency (RF) or Infrared (IR) Home Theater Control are both available with the iRemoteTS. Choose between basic, line-of-sight IR control or advanced two-way ZigBee[®] RF control and automation when integrated with a Niles HT-MSU Home Theater Main System Unit.

18 Backlit Hard Keys offer convenient access to frequently used commands including: House or Theater modes, system off, channel up/down, volume up/down, mute, menu navigation, and the Niles logo button to access remote and system settings.

iRemoteTS 2-WAY WIRELESS RF/IR REMOTE CONTROL SYSTEM

STOCK# FG01341

EXPORT STOCK# FG01406

FEATURES

- 5.4" w x 6.2" h x 1.25" d
13.72cm w x 15.75cm h x 3.18cm d

Charging Base

- 7.06" w x 1.2" h x 1.96" d
17.93cm w x 3.05cm h x 4.98cm d

WARRANTY AND SHIPPING

- Warranty: Two-year limited
- Shipping: Weight: 3.3 lbs/1.5 Kg

Touchscreen

A high-resolution color touchscreen that displays the home theater and IntelliControl ICS MultiZone system control screens

Theater Mode Key

Selects home theater control

System Off

Turns off the home theater or any zone in the MultiZone system

Inline Power Supply

The supplied charging power supply connects to this barrel connector

Charging Base Contacts

Connections that charge the iRemoteTS battery when placed in the charging base

IR Flasher

Transmits infrared (IR) codes to your home theater sources

Function Keys

Control commonly used functions of the home theater and MultiZone system

House Mode Key

Selects MultiZone system control

Niles Logo Key

Used to select the home theater or House zone you want to control, plus various system and source settings

Charging Indication LED

Lights up when the iRemoteTS is placed in the charging base and turns off when the battery is fully charged

NOTE: The iRemoteTS base is for CHARGING ONLY. If an iRemoteTS is to be used with an IntelliControl ICS System, a Niles RFG (FG01407) must be used or a properly configured ZigBee Network
