### IntelliControl® Main System Unit

#### Stock Number

FG00902

### IntelliControl® Tabletop Remote Control

#### Stock Number

FG00729

#### REMOTE CONTROL FEATURES

- Ergonomically designed, 43 button, RF remote control
- 10 Backlit Master Keys that provide one-touch operation of a Home Theater
- Easy to read Master Key labels; DVD, DSS, HBO, LIGHTS, etc.
- Function Keys (Numeric keys, Transport Keys and Cursor/Menu keys) to operate the selected source
- Large Volume Up and Down Keys make changing volume very convenient
- Large Channel Up and Down Keys make channel surfing easy
- System OFF key provides "One-touch" to turn off your entire Home Theater System
- Back Light Button for operating remote control in a dark room
- Batteries not included (3 "D" size batteries, 1.5 Volt, required)

#### MAIN SYSTEM UNIT FEATURES:

- Main System Unit has both Video and 12Volt sync inputs, to power manage all Home Theater system components
- 2nd Zone IR Input enables IR to be fed to any Home Theater system components shared by a Whole house Music System
- Home Theater IR Input enables IR to be fed to any of the Home Theater components using a conventional remote control
- Main System Unit has 12 Flasher outputs to control all Home Theater system components
- Main System Unit has two programmable 12Volt outputs (TV and Amp) and 1 Assignable 12Volt output
- 12 Volt outputs can be used to control Projector Lifts, Screens, Drapes or Lighting
- Main System Unit has two Relays, one triggered by the selection of a video source, the other assignable to any source
- Relays can be used to control Projector Lifts, Screens, Drapes or Lighting
- New, improved RF section reduces interference from other sources
- Includes specially tuned antenna and 20' extension cable with mounting bracket.
