

# SW300

## POWERED SUBWOOFER

### **12" Powered Subwoofer**

- High and low level inputs with music sense and voltage trigger circuitry
- Front mounted controls allow easy setup and adjustments
- Removable metal grille

Powered Subwoofers

SW300

Stock Number

FG01158

WOOFER TECHNOLOGY

- 1 Advanced digital amplifier creates prodigious power with little heat
- 2 12" carbon-fiber impregnated paper cone with butyl rubber surround reduces breakup and lowers distortion
- 3 Sophisticated motor assembly including high BL magnet, extended pole piece, and machined top plate for deep bass response and clean bass tones
- 4 11-layer no void birch ply cross-braced cabinet provides the ultimate in rigidity and sound clarity
- 5 Gold plated RCA LFE input bypasses all filter inputs
- 6 Left and Right stereo-summing inputs with high pass filter adjustments
- 7 Cascade audio outputs facilitate easy connection of additional woofers
- 8 On/off trigger input accepts 3V-30V AC/DC
- 9 Separate movie/music modes are selectable via a 12V trigger
- 10 0-360° phase control ensures optimal system integration
- 11 Adjustable low pass and high pass filters
- 12 Removable two-wire IEC line cord
- 13 Speaker-Level Inputs with high pass outputs for use in sub/SAT configurations
- 14 Music Sense Circuitry Automated powered Subwoofer turn on/off

SPECIFICATIONS

- Amplifier power: 300W RMS and 600W peak
- Frequency response: 25 Hz-160 Hz +/-3dB
- Overall dimensions: 15" wide x 18" high x 19" deep
- AC Power: 120V or 220/240V operation with input cord and fuse position change
- CSA Listed and tested under UL6500 standard

Warranty: Two-year limited
