RE: IntelliFile3 Revision 70 Release

Niles is pleased to announce that revision 70 of IntelliFile3 software successfully completed beta testing and has been officially posted to the Niles Audio website for download. We recommend that all previous versions of the IntelliFile3 software should be removed from computers and replaced with revision 70. A number of improvements to the software have been incorporated in this revision and a list of these improvements will be posted to the website. **The most significant addition to revision 70 is the implementation of "Battery Save Mode". This feature effectively increases the battery life of the iRemote from 10 to approximately 48 hours.** This feature is found in the "System Settings" menu of the iRemote, which is accessed by tapping the Niles logo button at the bottom of the iRemote.

Technical support strongly suggests you adhere to the following steps to insure a successful update of your IntelliFile3 software:

1. If connected, disconnect the IntelliFile3 infrared capture station from your laptop computer.
2. Copy the contents of the following folders from your C:\IntelliFile3 folder to a new folder on your desktop: "ICS Files" and "IR Files". This will safeguard your customer files and IR code files.
3. Uninstall the current version of the IntelliFile3 software on your computer using Windows "Add/ Remove Programs" in the Control Panel.
4. Delete the IntelliFile3 folder from your C drive.
5. Download revision 70 to your desktop. It can be found at: <http://www.intellicontrol.com/techsupport/intellifile3.htm>
6. Double click the setup icon on your desktop and follow the installation instructions.
7. When installation is complete copy the "ICS Files" and "IR Files" you saved to your desktop back into the new IntelliFile3 folder on your C drive.
8. Reconnect your IntelliFile3 infrared capture station to your laptop.

Should you have any questions, please feel free to contact Niles Technical Support at 1-800-289-4434 between the hours of 8am and 7pm Eastern Time, Monday - Friday.
