Re: Niles ZR-6/ iPod Compatibility Chart

Last year Apple instituted several changes to the interface of the iPod, requiring their licensees to implement these changes in any new product. These changes, which include a new charging scheme, have been incorporated into the ZR-6 MultiZone receiver. This has resulted in confusion as to which iPods are compatible with the ZR-6 and which are not. To clarify the situation and help alleviate confusion Niles has posted a "ZR-6/ iPod Compatibility Chart" to the Niles website. Please refer to this chart to insure a customer's iPod is compatible with the ZR-6.

The ZR-6/ iPod Compatibility Chart can be obtained on the Niles Technical Support webpage at:

<http://www.nilesaudio.com/techsupport/>

Please note:
