Subject: Silencer Volume Control

Page 1 of 1

It has come to our attention that there is some confusion in the field about applications for the Silencer Muting Volume Control. To ensure proper system design and installation the Silencer will only work with the A4.6 Ci MultiZone Preamp. The Silencer must be connected through the Expander and a Ci Numeric or Ci Transport accessory keypad. The Silencer Muting Volume Control will not work with the ZR-4630 MultiZone Receiver. If you have any questions or need further assistance, please contact Niles Technical Support at 800-289-4434 or e-mail us at: webmaster@nilesaudio.com
