Subject: DS Directed Soundfield Loudspeaker cutout dimensions

Page 1 of 1

---

The most recent Niles Loudspeaker Confidential Dealer Price Schedule(LT00045K) lists the cutout dimensions for all three of the DS Directed Soundfield models incorrectly. The DS6.3, DS6.5 and the DS6.7 are listed as having a cutout dimension of 9-7/8". This is the overall finished diameter of the installed speaker.

**The correct cutout dimension for these models is 8-5/8"**

Please make sure to correct your price schedules accordingly and communicate this information to the appropriate personnel in order to prevent any errors in future installations.

Should you have any questions concerning this Technical Bulletin please call Niles Technical Support at 1-800-289-4434 or email me directly at: [jhamilton@nilesaudio.com](mailto:jhamilton@nilesaudio.com).

Thank you for your continued support,
