Subject: IntelliFile II Software Update (Version 1.15)

Page 1 of 1

The new IntelliFile II software update Version 1.15 enables IntelliFile II software to operate with Windows ME and Windows 2000 operating systems. It also includes a register feature that was previously unavailable in past versions.

Niles has posted a HTML file on our website that has a link to a downloadable file of the IntelliFile II software update Version 1.15. It is important to know that the new IntelliFile II Version 1.15 is a software update only. You must have IntelliFile II Version 1.02 installed on your computer for Version 1.15 to operate. You can access the IntelliFile II Version 1.15 software update at:
<http://www.nilesaudio.com/intellifileupdate.html>

This bulletin explains which file extensions should be backed up prior to installing IntelliFile II software update Version 1.15. Proper back up procedures will ensure that all previously created customer and IR files will not be removed or replaced if they are located in the Niles directory.

- **Create a new folder in My Documents**
- **Open your C:\Program Files\Niles in Windows Explorer**
- **Select all files containing the following extensions**
 - 1) **(.lf_ / .ifd) = IntelliControl Customer Projects**
 - 2) **(.ifc / .ifz) = IntelliPad Customer Projects**
 - 3) **(.ifp) = Function Key Page**
 - 4) **(.lin) = Infrared Codes**
- **Copy all of the files and then paste them into the new folder**

Note: The downloadable file is a self-extracting program. Once Version 1.15 is downloaded and stored in your computer, simply click on the file and the program will automatically upgrade your IntelliFile II software to Version 1.15 status. All files containing the **(.lin / .ifp)** extensions can be moved over to the Niles folder, as needed using the copy/paste utility in Windows Explorer. The customer files can be left in the new folder. When opening a saved file you just select the new folder when prompted.

If you need any further assistance, please contact Niles Technical Support at 800-289-4434 or email us at: webmaster@nilesaudio.com.
