Clarification of Dual Banana Plug Compatability with Eight Banana Jack Convenience Outlets

Our general product catalog and dealer price schedule state that the GC-PROBP Pro-Dual Banana Plug fits all 5W and BJ series convenience outlets, and that the GC-DBP Dual Banana Plug fits all 5W and BJ series convenience outlets (except 5W-8D). This is incorrect. The physical size restraints of the 5W-8D and BJ-8D Decora style faceplates prevent the use of dual banana plugs.

Therefore, please note that these two products:

1. GC-PROBP Pro-Dual Banana Plug, Stock # FG00761
2. GC-DBP Dual Banana Plug, Stock # FG00762

Can not be used with these two products:

1. 5W-8D Eight 5 Way to 5 Way, Stock # FG00382/383
2. BJ-8D Eight Banana to 5 Way, Stock # FG00420/421

Solution:

Use single style banana plugs only (GC-BPR & GC-BP), on the 5W-8D & BJ-8D convenience outlets.

Convenience outlets:

FG00382/383 & FG00420/421

Should use only single banana plugs:

FG00454 & FG00605
